

PROJECT HIGHLIGHTS

- * Excellent location – well connected to all parts of the city; set in largely green surroundings.
- * Wide range of apartment types to choose from.
- * All apartments open on 2 sides to maximize views.
- * High rise apartments (the first in Delhi) to give panoramic view of the lush green surroundings. Low-rise apartments to give views of the intensively landscaped interior gardens.
- * Fully integrated and secure complex to provide a luxurious lifestyle.
- * Ample parking for residents and visitors.
- * Environmentally and ecologically sensitive design:
 - a. 100% rain water re-charge on site.
 - b. 100% waste water treatment and re-use to reduce requirement of water.
 - c. Energy saving air-conditioning and electrical design.
 - d. Use of environmentally sensitive materials.
 - e. Use of solar power for water heating and external lighting.
 - f. Innovative use of bio-walls / vertical gardens for comfortable micro-climate.
 - g. Buildings oriented in a manner to provide summer shading and winter sun in open and enclosed areas.
- * 100% power back-up.
- * Apartments with 100% air-conditioning.
- * 24-hour water supply with complete treatment of water.
